OVERALL PERFORMANCE

Promising – Keep Practicing

A decent foundation for a Software Engineer role, but more practice on structure and confidence will significantly improve your score.

Grade C — Fair

Dimension Breakdown

Technical Knowledge 51

Work on articulating technical concepts more clearly with examples.

Communication 50

Practice the STAR method (Situation, Task, Action, Result) for structured answers.

Confidence 66

Confidence was moderate — reduce filler words and speak more assertively.

Eye Contact 77

Good eye contact maintained with the camera.

Posture 82

Maintained upright, professional posture throughout.

Skill Radar

Strengths

Maintained good eye contact with the camera.

Professional posture maintained throughout the session.

Fluent speech with minimal hesitations.

Areas to Improve

Deepen technical answers with concrete examples and metrics.

Use the STAR method (Situation, Task, Action, Result) to structure answers.

Reduce filler words (um, uh, like) and practice speaking slower.

Aim for 80–120 word answers — elaborate more with examples.

 Question-by-Question Review

Q1

55/100

Tell me about yourself and what led you to pursue a career as a Software Engineer.

"sorry I couldn't get it can you repeat can we skip I couldn't do the question I like to answer the next question"

**AI Feedback:** Using local estimate — AI scoring temporarily unavailable.

Structure answers using STAR method

Q2

52/100

What motivates you about this role?

"I am always wanted to be a software engineer just so I want to do be here"

**AI Feedback:** Using local estimate — AI scoring temporarily unavailable.

Structure answers using STAR method

Q3

61/100

What design patterns do you use and why?

"I have a very less knowledge and design patterns so I can actually answer this question"

**AI Feedback:** Using local estimate — AI scoring temporarily unavailable.

Structure answers using STAR method

Q4

54/100

Where do you see yourself in 3–5 years?

"I don't know when I takes me I'll go there"

**AI Feedback:** Using local estimate — AI scoring temporarily unavailable.

Structure answers using STAR method

Q5

56/100

How would you design a URL shortener at scale?

"I'll just repeat it how to design a girl"

 **AI Feedback:** Using local estimate — AI scoring temporarily unavailable.

 Structure answers using STAR method

Recommended Next Steps

-  Practice 2–3 more Software Engineer mock interviews this week to build consistency.
-  Review core technical concepts for your role — focus on system design and algorithms.
-  Study the STAR method and write out structured answers to your 5 weakest questions.
-  Research the company thoroughly — tailor your answers to their tech stack and culture.
-  Prepare 3–5 strong stories from your experience using the STAR framework before your real interview.
